For: **Cargo Protecting System For A Pickup Truck**

COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Mail Stop Issue Fee
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

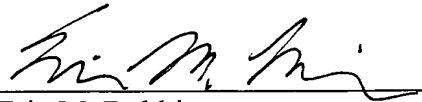

Dear Sir:

In the Notice of Allowability accompanying the Notice of Allowance dated October 25, 2004, a Statement of Reasons for Allowance was provided. The Examiner's Statement indicates that "the recitations of the specific features of the cargo protecting system for a pickup truck in claims 1 and 37 including especially the construction of the first chamber being defined by a first shell having first and second openings, the second chamber disposed substantially directly beneath the bed floor and adjacent to the second opening, the second chamber being separate from the first chamber and accessible from the first chamber through the second opening is not taught nor is fairly suggested by the prior art of record." The Examiner's Statement also indicates that "the recitations of the specific features of the cargo protecting system for a pickup truck in claim 18 including especially the construction of the securement mechanism and the opening mechanism both being disposed entirely below the second support surface when the closure member is in the first position is not taught nor is fairly suggested by the prior art of record." Applicants agree that the prior art fails to teach or

make obvious these claimed elements. However, Applicants wish to clarify that the art also fails to teach or make obvious the claimed cargo protecting systems for a pickup truck, as recited in independent claims 1, 18 and 37.

These Comments are submitted in order to clarify the Examiner's Statement of Reasons for Allowance. Entry is therefore believed to be in order and is respectfully requested. Please charge any fee required in connection with this paper to Deposit Account No. 04-1133.

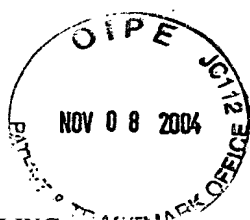

Respectfully submitted,
